

## Way Off the Grid

**We off the great great great great—Way Off the Grid.**

What's poppin' people? It's Dante. Just had my coffee.

---

## Spartans, What Is Your Job?

*Do we run, Spartans? No.*

*We march.*

*We're not fools. Fools run.*

We're the future Spartans, baby. I am the **Übermensch**, right? The *Overman*.

I think we actually gotta go **beyond good and evil**.

---

## Beyond Morality

I've been thinking a lot about morality, ethics, all that. I think Christian morals are good—for the most part. But there's something to be said about the way it *controls*.

You start reading some of this stuff in the Bible...

A lot of it is used to control. It's all:

- Be meek
- Be humble
- Be this
- Be that

Treat your neighbor like thyself?

**No.**

**Treat me like an emperor.**

***Pretend you're an emperor just for the day. What would you do if this was your last day as Emperor?***

Rome wasn't built in a day—but maybe you can become the *creator of the cosmos*, just for fun, imaginatively.

Play on that fine line between **demigod** and **mortal Spartan**.  
It's fun. Just for fun.

### **Dream Big, Create Bold**

I like to **play**. I like to **dream**. I like to let my imagination run wild.  
That Nietzsche idea of the Übermensch? Yeah—I feel that.

***Be a real Mensch. A real man. The Overman. Overpowered.***

I'd rather be **overpowered** than **meek**.  
I don't wanna be docile.

---

### **Jesus Is My Shepherd—But I'm No Media Sheep**

Jesus is my shepherd, I'll be his sheep.

***But I'm not gonna be the sheep of the media.***

The media? **Dead.**

You see these Hollywood stars, these music stars...  
A lot of them are throwing the devil right in your face.

Doja Cat dressed as the devil? What are we doing?  
These celebrities out here dancing like demons.

***Stay away. Media is dead.***

---

## **How to Control the World**

Easy. Here's how:

1. Put everyone to sleep in a trance
2. Stick them in pods
3. Make them work at laptops
4. Feed them endless media
5. Let them out only to buy more junk

And voilà: you've got modern-day slavery.

But don't worry...

***You can be an emperor too—you just gotta think outside the box.***

---

## **Off the Magic Black Box**

Think outside your **magic black box**.

Your **telly screen**. Your **Matrix**.

***We off the grid. Off the great great great great grid.***

Now, I'm not saying I'm living Amish—  
but I've thought about it.

Sometimes I think, "Screw it, I'll go join the Amish."  
My favorite photo book ever? *The Mennonites* by Larry Towell.

***I've dreamed of just jumping into that book and living there.***

---

## **Off the Grid Is a Mindset**

Being off-grid is a mindset.

- **Deprogram** yourself.
  - **Exist** outside the Matrix.
  - **Think** differently.
  - **Move** differently.
- 

## **Mad Max and Rome**

It's Mad Max and Rome now.

***Live like it's the end of the world. Be the emperor.***

It's every man for themselves.

Find your tribe.

***If we can break through space, we'll be riding around Mars in a Cybertruck.***

---

## The Future Is Ours

***Broken in.***

***Come to steal all of your euros.***

The grid is broken. The dream is real.

**You are the Übermensch.**
